1. Introduction

1.1 Purpose

This document is a subsidiary document to the Balancing and Settlement Code (BSC). Its purpose is to catalogue and provide further information on the contents of reports issued by the BSC Agents. It supplements that information presented in Section V of the Code.

1.2 Scope

This document lists the data items appearing in BSC Agents' reports listed in Annex V-1 of the Code or where appropriate, provides references to the relevant sections of the NETA and FAA Interface Definition Documents (hereafter “the IDD documents”) which hold further detail on the content of the reports. It does not cover all of the reports issued by a BSC Agent. The CVA Data Catalogue and the SVA Data Catalogue cover all BSC Agent reports.

The meaning of the data items is not described or defined nor does the document describe the structure or form of any output files that would contain the data items. This information is contained in the relevant IDD Documents.

1.3 Main Users of the Document

The main users of this subsidiary document are:

- (a) Parties;
- (b) Party Agents;
- (c) Market Index Data Providers
- (d) The following BSC Agents:
 - Balancing Mechanism Reporting Agent (BMRA)
 - Central Registration Agent (CRA)
 - Central Data Collection Agent (CDCA)
 - Settlement Administration Agent (SAA)
 - Energy Contract Volume Aggregation Agent (ECVAA)
 - Funds Administration Agent (FAA) &
 - Technical Assurance Agent (TAA)
- (e) Persons other than Parties that have access to the BMRS via the High Grade Service, in accordance with Section V of the BSC. Such users only have access to reports posted on the BMRS;
- (f) Persons other than Parties that have access to P114 data, Total Gross Demand per GSP Report (CDCA-I029), Meter Period Data Report (CDCA-I030), Aggregated Data Report (CDCA-I042) and Settlement Reports (SAA-I014 (sub-flow 2), in accordance with Section V of the BSC.

1.4 Balancing and Settlement Code Provision

This Reporting Catalogue should be read in conjunction with the Code and in particular Section V.

This Reporting Catalogue has been produced in accordance with the provisions of the Code. In the event of an inconsistency between the provisions of this BSC Subsidiary Document and the Code, the provisions of the Code shall prevail.

2. Reports from the BMRA

2.1 Data Posted on the BMRS

The BMRA shall receive and publish the Balancing Mechanism and System Related Data (including data relating to Emergency Instructions issued by the System Operator, via the System Warning Function) continuously as it is received from the System Operator. The reports 'Publish Balancing Mechanism Data' (BMRA-I001) and 'System Related Data' (BMRA-I002) and the data items contained therein are defined in the NETA IDD Part 1.

2.2 BMRA Exception Reports to BSCCo

The BMRA shall issue Exception Reports to BSCCo if an input message fails validation, or if insufficient data has been received. This covers errors in all message types. This report and the data items contained therein are defined in the NETA IDD Part 1 (Reference BMRA-I010).

2.3 BMRA Performance Reports to BSCCo

The BMRA Service shall issue performance reports to the BSCCo Ltd on a monthly basis detailing any incidents where performance fell short of the required service levels. This report and the data items contained therein are defined in the NETA IDD Part 2 (Reference BMRA-I011).

2.4 Credit Default Notices Posted on the BMRS

The BMRA Service shall publish a Credit Default Notice which provides BMR Users with information on the Party in Credit Default along with details of the Credit Default that has occurred. This report and the data items contained therein are defined in the NETA IDD Part 1 (Reference BMRA-I019).

2.5 European Regulation Data Posted on the BMRS

The BMRA Service shall receive and publish on a continuous basis, data relating to the Regulation on Energy Market Integrity and Transparency (REMIT)¹ and the European Transparency Regulation² as it is received from the System Operator and/or BMR Users. The reports and the data items contained therein are defined in the NETA IDD Part 1 (Reference BMRA-I030 and BMRA-I031).

¹ [Regulation \(EU\) No 1227/2011](#)

² [Regulation \(EU\) No 543/2013](#)

3. Reports from the SAA

3.1 Interim Information Settlement Report

The SAA shall issue Interim Information Settlement Reports for each Trading Party (where applicable) to the relevant Party, any other Party (on request), any non-Party (on request) and the Transmission Company. The reports shall detail Bid-Offer Data, Acceptance Data and Trading Charges relating to that Party, and volumes and prices for the whole system, from the Interim Information Settlement Runs.

The report issued to Parties and the data items contained therein are defined in the NETA IDD Part 1 (reference SAA-I014, sub-flow 1). The reports issued to the Transmission Company (reference SAA-I014, sub-flow 2) and BSCCo (reference SAA-I014, sub-flow 3) are defined in the NETA IDD Part 2.

3.2 Initial Settlement Report

The SAA shall issue Initial Settlement Reports for each Trading Party to the relevant Party, any other Party (on request), any non-Party (on request) and the Transmission Company, detailing Bid-Offer Data, Acceptance Data and Trading Charges relating to that Party, and volumes and prices for the whole system, from the Initial Settlement Runs.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference SAA-I014). The report issued to the Transmission Company and BSCCo is defined in the NETA IDD Part 2 (reference SAA-I014).

3.3 Reconciliation Settlement Reports

The SAA shall issue Timetabled Reconciliation Settlement Reports for each Trading Party to the relevant Party, any other Party (on request), any non-Party (on request) and the Transmission Company, detailing Bid-Offer Data, Acceptance Data and Trading Charges relating to that Party and volumes and prices for the whole system, from the Timetabled Reconciliation Settlement Runs.

These reports and the data items contained therein are defined in the NETA IDD Part 1 (reference SAA-I014). The report issued to the Transmission Company and BSCCo is defined in the NETA IDD Part 2 (reference SAA-I014).

3.4 Final Reconciliation Settlement Report

The SAA shall issue Final Reconciliation Settlement Reports for each Trading Party to the relevant Party, any other Party (on request), any non-Party (on request) and the Transmission Company, detailing Bid-Offer Data, Acceptance Data and Trading Charges relating to that Party or the Transmission Company, and volumes and prices for the whole system, from the Final Reconciliation Settlement Runs.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference SAA-I014). The report issued to the Transmission Company and BSCCo is defined in the NETA IDD Part 2 (reference SAA-I014).

3.5 Post-Final Settlement Report

The SAA shall issue Post-Final Settlement Reports for each Trading Party to the relevant Party, any other Party (on request), any non-Party (on request) and the Transmission Company, detailing Bid-Offer Data, Acceptance Data and Trading Charges relating to that Party, and volumes and prices for the whole system, from a Post-Final Settlement Run.

These reports and the data items contained therein are defined in the NETA IDD Part 1 (reference SAA-I014). The report issued to the Transmission Company and BSCCo is defined in the NETA IDD Part 2 (reference SAA-I014).

3.6 SAA Performance Reports to BSCCo

The SAA Service shall issue SAA Performance Reports to BSCCo each month summarising actual against expected timing for various SAA reports. This report and the data items contained therein are defined in the NETA IDD Part 2 (reference SAA-I020).

4. Reports from THE ECVAA

4.1 Notification Report to Parties

The ECVAA Service shall issue Notification Reports to each Contract Trading Party at the end of each Settlement Day. The Notification Reports shall summarise the Energy Contract Volumes and Metered Volume Reallocations relating to that Contract Trading Party, in respect of accepted notifications for the given Settlement Day and provide indebtedness data once these notifications are taken into account.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference ECVAA-I014).

4.2 ECVN Feedback Report to Parties & ECVNAs

The ECVAA Service shall issue ECVN Feedback to relevant parties providing details of ECVNs rejected or refused or treated as rejected or refused, promptly after a rejection has occurred. This report and the data items contained therein are defined in the NETA IDD Part 1 (reference ECVAA-I009).

4.3 MVRN Feedback Report to Parties & MVRNAs

The ECVAA Service shall issue MVRN Feedback to relevant parties providing details of MVRNs rejected or refused or treated as rejected or refused, promptly after a rejection has occurred. This report and the data items contained therein are defined in the NETA IDD Part 1 (reference ECVAA-I010).

4.4 ECVN Acceptance Feedback to Parties & ECVNAs

The ECVAA Service shall issue ECVN Acceptance Feedback for each Contract Trading Party, to the submitting ECVNA and the associated Party (or Parties) promptly after successfully matching the components of ECVNs, where the effective date of the ECVN is no greater than 72 Settlement Periods ahead. No such report will be issued where the ECVNs are submitted by the same person in respect of both the

Relevant Contract Parties which are valid for a Settlement Period, as the Settlement Period shall be deemed to be matched.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference ECVAA-I028).

4.5 MVRN Acceptance Feedback to Parties & MVRNAs

The ECVAA Service shall issue MVRN Acceptance Feedback for each Contract Trading Party, to the submitting MVRNA and the associated Party (or Parties) promptly after successfully matching the components of MVRNs, where the effective date of the MVRN is no greater than 72 Settlement Periods ahead. No such report will be issued where the MVRNs are submitted by the same person in respect of both the Lead Party and the Subsidiary Party which are valid for a Settlement Period, as the Settlement Period shall be deemed to be matched.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference ECVAA-I029).

4.6 ECVAA Performance Report to BSCCo

The ECVAA Service shall issue ECVAA Performance Reports to BSCCo each month summarising ECVAA performance in respect of processing contract notification data received. This report and the data items contained therein are defined in the NETA IDD Part 2 (reference ECVAA-I017).

4.7 Forward Contract Report to Parties

The ECVAA Service shall issue Forward Contract Reports daily to each relevant Contract Trading Party summarising notifications received relating to that Contract Trading Party, for a given number of Settlement Days following the Settlement Day on which the report is provided.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference ECVAA-I022).

4.8 Notification System Status Report to BSCCo

The ECVAA Service shall issue a status report to BSCCo Ltd. as soon as possible after:

- The start of an ECVAA System Failure or ECVAA System Withdrawal;
- A change in the Notification Agents affected by an existing ECVAA System Failure or ECVAA System Withdrawal; or
- The end of an ECVAA System Failure or ECVAA System Withdrawal.

This report and the data items contained therein are defined in the NETA IDD Part 2 (reference ECVAA-I040).

4.9 Volume Notification Nullification Confirmation Report to Parties

The ECVAA Service shall issue the following Volume Notification Nullification Confirmation Reports (VNNCRs) to each relevant Contract Trading Party to whom the Volume Notification Nullification Request (VNNR) relates promptly follow validation of the VNNR, confirming either the acceptance or rejection of a VNNR.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference ECVAA-I038).

4.10 Nullification Completion Report to Parties

The ECVAA Service shall issue a Nullification Completion Report to Parties upon completion of nullification process. This report and the data items contained therein are defined in the NETA IDD Part 1 (reference ECVAA-I039).

5. Reports from the CRA

5.1 Registration to Interested Parties

The CRA shall issue Registration Reports for each Party, to Parties as necessary, summarising any new or changed registration data relating to that Party. This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CRA-I014).

5.2 Operations Registration Report to BSCCo and the Transmission Company

The CRA shall issue daily Operations Registration Reports to BSCCo and the Transmission Company which list all registered BM Units, Trading Units and Interconnectors.

This report and the data items contained therein are defined in the NETA IDD Part 2 (reference CRA-I020).

6. Reports from the CDCA

6.1 Raw Metered Volumes Data Report to Party, Transmission Company & Licensed Distribution System Operators.

The CDCA shall issue Raw Metered Volume Data Reports daily to the relevant Party(s), including the Distribution Business, and the System Operator, detailing meter for which the Party is a registrant and the status of this data.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CDCA-I012).

6.2 Estimated Data Report to BSCCo, MOA, Party, Transmission Company and Licensed Distribution System Operators.

The CDCA shall issue Estimated Data Reports to each relevant Parties (including Distribution Businesses and the Transmission Company) as required, or on monthly basis. The report shall contain all estimate notifications issued by CDCA in a given period relating to the Registrant, the estimation method used and whether the estimation was agreed.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CDCA-I014).

6.3 Exception Report for Missing and Invalid Meter Period Data to Responsible Party and MOA

The CDCA shall send daily Exception Reports for Missing and Invalid Meter Period Data to the relevant Party (i.e. the Registrant) and the MOA operating the Metering System, listing any notification of data deemed to be invalid or not available for collection.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CDCA-I010).

6.4 MAR Reconciliation Reports to Party and MOA

The CDCA shall issue Meter Advance Reconciliation reports to each relevant Party (i.e. the Registrant) and the relevant MOA for each metering system every three months. The reports shall detail the actual difference calculated for each active energy meter or associated outstation register.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CDCA-I018).

6.5 BM Unit Aggregation Report to Party and on request to any licensed Party or licensed non-Party

The CDCA shall issue BM Unit Aggregation reports daily for each BM Unit to the Party who is the lead party for the BM Unit, any other Party (on request) and any non-Party (on request), detailing aggregated meter flow volumes.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CDCA-I042).

6.6 Interconnector Aggregation Report

The CDCA shall issue Interconnector Aggregation reports daily for each Interconnector to the Party who is the Interconnector Administrator associated with the Interconnector. The reports shall detail the aggregated meter flows for the Interconnector.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CDCA-I041).

6.7 Meter Period Data Report to Licensed Distribution System Operators and on request to any licensed Party or licensed non-Party

The CDCA shall issue Meter Period Data Reports daily to Distribution Businesses, any other Party (on request), any non-Party (on request), detailing all Metered Volumes for all Distribution System Connection Points.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CDCA-I030).

6.8 Report of Aggregation Rules to Parties

The CDCA shall produce a copy of the aggregation rules to relevant Parties to ensure the correct recording of the aggregation rules. This shall be provided on request and as confirmation of the process of loading the rules into the system.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CDCA-I048).

6.9 Total Demand per GSP to the Transmission Company and on request to any licensed Party or licensed non-Party

The CDCA shall issue reports daily to Parties, non-Parties and the Transmission Company, detailing aggregated meter flow volumes for each Grid Supply Point in each GSP Group per Settlement Period.

This report and the data items contained therein are defined in the NETA IDD Part 1 (reference CDCA-I029).

6.10 CDCA Performance Reports to BSCCo

CDCA shall provide Performance Reports which breakdown actual activities, relative to that expected to BSCCo Ltd on a monthly basis, or immediately if service level falls below agreed service levels.

This report and the data items contained therein are defined in NETA IDD Part 2 (reference CDCA-I032).

7. Reports from the FAA

7.1 Quarterly Statements to Parties

The FAA shall issue Quarterly statements to each Trading Party and the Transmission Company which provide a breakdown per Settlement Day of initial and reconciliation amounts payable by that Party as detailed in Advices Notes, including interest and tax.

This report and the data items contained therein are defined in the FAA IDD Part 1 (reference FAA-I010).

8. Reports from BSCCo

8.1 BSCCo Reports Published on the BSC Website

- (a) Parameters Set By the Panel and in the Code
- Credit Assessment Load Factor (CALF_i) as specified in BSC Section M1.5
 - the Credit Assessment Price as specified in BSC Section M1.4

- Transmission Loss Factor as specified in BSC Section T2.2.1(a)
- the coefficient ' α ' as specified in BSC Section T2.2.1(b)
- the Market Index Data Provider and associated Individual Liquidity Threshold as specified in BSC Section T1.5
- the De Minimis Acceptance Threshold as specified in BSC Section T1.8.1
- the Continuous Acceptance Duration Limit as specified in BSC Section T1.9.1
- the Line Loss Factors in respect of SVA Metering Systems as specified in BSC Section K1.7 the Price Average Reference Volume (PAR) as specified in BSC Section T1.10.1
- the Replacement Price Average Reference Volume (RPAR) as specified in BSC Section T1.11.1

(b) Party Details

- Name and ID of each Party
- BM Unit Registration Details:
 - BM Unit ID
 - BM Unit name
 - BM Unit type
 - NGC BM Unit name
 - Grid Supply Point Group ID
 - Grid Supply Point Group name
 - Trading Unit name
 - Generation Capacity (MW)
 - Demand Capacity (MW)
 - Production/Consumption flag
 - Production/Consumption status
 - Transmission Loss Factor
 - Credit Assessment Load Factor
 - BM Unit Credit Assessment Import Capability
 - BM Unit Credit Assessment Export Capability
 - Exempt Export flag
 - Base Trading Unit flag
 - Final Physical Notification flag
 - Interconnector ID

- Effective From Date
 - BM Unit Credit Qualifying flag
 - The Funding Shares of each Trading Party, as specified in BSC Section D1.4.1(a) and (b)
- (c) Operational Data
- The System Sell Price and the System Buy Price for each Settlement Period in a Settlement Day
- (d) Trading Dispute³ Notices [\[housekeeping change\]](#)
- Notification of the resolution of a Trading Dispute, as specified in Section M3.5.1 a)
- (e) Not Used
- (f) Not Used
- (g) Market Index Data Provider Report.
- Market Index Data Provider Details
 - Market Index Data Provider ID
 - Market Index Data Provider Name
 - Market Index Data
- This data includes the following for each Settlement Period:
- Individual Liquidity Threshold
 - Market Index Price (PXP_{sj})
 - Market Index Volume (QXP_{sj})
- (h) List of Suppliers which can complete a change of BM Unit ownership within 5WDs for a BM Unit with CVA Metering and associated with a Customer premises
- Name and ID of each Party which has applied and satisfied the following criteria in accordance with BSCP15:
 - The Party has acceded to the BSC and completed Party registration in the role of Supplier
 - The Party has successfully completed registration and trading flows to register as a Supplier and completed metering flows to register CVA BM Units

³ Credit Default statements will continue to be published on the BSC Website for 30 calendar days following the effective date of v8.0 of this document. After this period, all new Credit Default statements will be published on the BMRS. Details of any Party that has cleared its Credit Default in the 30 calendar days following the effective date of v8.0 of this document will be published for a further 30 days. After this, all Credit Default Statements and Notices will be published on the BMRS (see Section 2.4)

- The Party has appropriate registration on Transmission Company Systems and use of a qualified trading agent and trading point (as defined in the Grid Code).
