

DRAFT LEGAL TEXT FOR PROPOSED MODIFICATION P338

The purpose of this legal text is to resolve conflicts that exist between the following modifications:

P272: Approved but not Implemented

P300: Approved and Implemented

P320: Approved but not Implemented

P322: Approved and Implemented

SECTION L: METERING (V19.0)

*Amend approved legal text for Modification P272 such that the amendments to Section L2.2.2 introduced by P272 are replaced by the approved legal text implemented by P322 as set out in version 19 of Section L. **No changes are needed to Section L2.2.2 (V19.0) to implement this:***

2.2 Type of Metering Equipment

2.2.1 The Metering Equipment to be installed:

- (a) in the case of a CVA Metering System, shall be Half Hourly Metering Equipment;
- (b) in the case of a SVA Metering System which is 100kW Metering System, shall be Half Hourly Metering Equipment;
- (c) in the case of a SVA Metering System associated with any Third Party Generating Plant, except in the case of a Small Scale Third Party Generating Plant, shall be Half Hourly Metering Equipment;
- (d) in the case of a SVA Metering System other than as provided in paragraphs (b), (c) and 2.2.2 shall be Half Hourly Metering Equipment or Non-Half Hourly Metering Equipment as the Registrant shall choose.

2.2.2 Where a Supplier is under an obligation in its Supply Licence to install an Advanced Meter at a premises and/or supply electricity to a premises through an Advanced Meter then:

- (a) prior to 5 November 2015 the Advanced Meter shall, for the purposes of the Code, be deemed to be either Half Hourly Metering Equipment or Non-Half Hourly Metering Equipment as the Registrant shall choose (subject always to paragraph 2.2.1(b));
- (b) subject always to paragraph 2.2.2(c), as from 5 November 2015:
 - (i) within 45 Business Days of the effective date of either a change of Supplier or a Contract Renewal (subject to the approval of the Performance Assurance Board pursuant to Section Z8.3), the Advanced Meter shall be Half Hourly Metering Equipment;
 - (ii) in all other cases, the Advanced Meter shall, for the purposes of the Code, be deemed to be either Half Hourly Metering Equipment or Non-Half Hourly Metering Equipment as the Registrant shall choose (subject always to paragraph 2.2.1(b) and Section Z8.3);

- (c) as from the P272 Implementation Date the Advanced Meter shall be Half Hourly Metering Equipment.
- 2.2.3 For the purposes of paragraph 2.2.2(b)(i), the "**effective date**" of a change of Supplier or a Contract Renewal shall be:
- (a) in respect of a change of Supplier, the date from which the new Supplier commences the supply of electricity to a Customer; and
 - (b) in respect of a Contract Renewal, the date from which the terms of a Contract Renewal come into operational effect.

2.3 New Metering Systems

Amend approved legal text for Modification P272 such that the amendments to Section L2.3.3 introduced by P272 are replaced by the approved legal text implemented by P322 as set out in version 19 of Section L. No changes are needed to Section L2.3.3 (V19.0) to implement this:

- 2.3.3 Without prejudice to any other right of other Parties, if the Registrant of a new SVA Metering System within paragraphs 2.2.1(b), (c) or 2.2.2 fails to ensure that Metering Equipment is installed and commissioned in accordance with paragraph 2.1.1(a) before the registration of the Metering System becomes effective, he shall be liable to a charge to be determined and payable in accordance with Annex S-1.

SECTION S: SUPPLIER VOLUME ALLOCATION (V26.0)

2.6 Provision of Data

Amend approved legal text for Modification P272 such that new Section L2.6.1A introduced by P272 is replaced by the approved legal text implemented by P322 as set out in version 26 of Section L. No changes are needed to Sections L2.6.1A, L2.6.1B or L2.6.2 (V26.0) to implement this:

- 2.6.1A In respect of each SVA Metering System which is an Advanced Meter in relation to which it is registered with a Supplier Meter Registration Agent, a Supplier shall submit, or procure the submission of, the appropriate data (as specified by BSCP01 (Overview of Settlement Process)) to the SVAA promptly after collection of such data and, in any event:
- (a) subject to paragraph 2.6.1B, in respect of the data for Settlement Days before the P272 Implementation Date, before the relevant Final Reconciliation Volume Allocation Run; and
 - (b) in respect of the data for Settlement Days on or after P272 Implementation Date, before the relevant First Reconciliation Volume Allocation Run,
- in each case, in accordance with BSCP01 (Overview of Settlement Process).
- 2.6.1B In respect of each SVA Metering System which is:
- (a) an Advanced Meter; and
 - (b) Half Hourly Metering Equipment in accordance with Section L2.2.2,
- in relation to which it is registered with a Supplier Meter Registration Agent, a Supplier shall submit, or procure the submission of, the appropriate data (as specified by BSCP01 (Overview of Settlement Process)) to the SVAA promptly after collection of such data and,

in any event, in respect of data for Settlement Days on or after P272 Implementation Date, before the relevant First Reconciliation Volume Allocation Run, in accordance with BSCP01 (Overview of Settlement Process).

2.6.2 In respect of each SVA Metering System which is not:

- (a) a 100kW Metering System; or
- (b) Half Hourly Metering Equipment in accordance with Section L2.2.2,

in relation to which it is registered with a Supplier Meter Registration Agent, a Supplier shall submit, or procure the submission of, the appropriate data (as specified by BSCP01 (Overview of Settlement Process)) to the SVAA promptly after collection of such data and, in any event, before the relevant Final Reconciliation Volume Allocation Run, in accordance with BSCP01 (Overview of Settlement Process).

ANNEX S-1: PERFORMANCE LEVELS AND SUPPLIER CHARGES (V9.0)

2. PERFORMANCE LEVELS

2.2 Energy and Metering Systems on Annual Advances and Actual Readings at Each Volume Allocation Run - Serial SP08

Amend approved legal text for Modification P272 such that the amendments to Section S-1 2.2.8 introduced by P272 are replaced by the approved legal text included in P320 which should read as follows. No changes are needed to Section S-1 2.2.8 to implement this:

2.2.8 In relation to each GSP Group and in respect of Half Hourly Metering Systems for which a Supplier is responsible which are identified as not being 100kW Metering Systems, the Supplier shall ensure that (in accordance with the relevant BSC Procedure) in respect of each month actual (rather than estimated) values in respect of not less than 99 per cent of the total energy attributable to that Supplier relating to such Metering Systems for the aggregate of the Applicable Settlement Periods are provided by its Half Hourly Data Aggregator to the SVAA in time for the relevant First Reconciliation Volume Allocation Run and any subsequent Reconciliation Volume Allocation Runs.

Amend approved legal text for Modification P272 such that Section S-1 2.2.8A introduced by P272 is deleted as set out in Modification P320 as follows. No changes are needed to Section S-1 2.2 to implement this:

~~2.2.8A Where any Half Hourly Metering Systems referred to in paragraph 2.2.8 are Advanced Meters and the data to be provided thereunder relates to Settlement Days occurring on or after 1 April 2015 then the Supplier shall ensure that the actual values provided thereunder shall be provided in time for the relevant First Reconciliation Volume Allocation Run.~~

2.4 Installation of Half Hourly Metering - Serial SP04

Amend approved legal text for Modification P272 such that new Section L2.4.1A and the amendments to L2.4.2 introduced by P272 are replaced by the approved legal text implemented by P320 as set out in version 9 of Section S-1. No changes are needed to Sections L2.4.1 or L2.4.2 (V9.0) to implement this:

2.4.1 A Supplier shall comply with the requirements of Section L2.1.1 in relation to the installation of Half Hourly Metering Equipment for each 100kW Metering System for which it is responsible.

- 2.4.2 The Performance Level set out in paragraph 2.4.1 is referred to elsewhere in this Annex S-1 as Serial SP04.

ANNEX X-1: GENERAL GLOSSARY (V71.0)

*Amend approved legal text for Modification P272 such that the amendments to Section X-1 introduced by P272 are replaced by the approved legal text implemented by P322 as set out in version 71 of Section X-1. **No changes are needed to Section X-1 (V71.0) to implement this:***

"Advanced Meter": means Metering Equipment installed in accordance with the obligation set out in condition 12.18 of the Standard Conditions of each Supply Licence;
