

4.5. MP Form

Modification Proposal – BSCP40/03	MP No: PXXX <i>(mandatory by BSCCo)</i>
Title of Modification Proposal <i>(mandatory by originator):</i> Consequential changes to P272 Legal Text	
Submission Date <i>(mandatory by originator):</i> DD Month YYYY	

Description of Proposed Modification (*mandatory by originator*)

This Modification proposes to make some clarifications to the approved legal text for [P272 'Mandatory Half Hourly Settlement for Profile Classes 5-8'](#), to resolve some inconsistencies with the original text introduced since it was approved. These changes are:

- to reflect that the Implementation Date embedded in the P272 legal text of “1 April 2016” is now “1 April 2017”; and
- to address any incompatibility issues in the BSC that would have been introduced by implementing P272, in particular with respect to Modifications of the BSC already made or to be made by:
 - P320:
 - ‘Amend approved legal text for P272 such that the amendments to Section S-1 2.2.8 introduced by P272 are replaced by the approved legal text included in P320’;
 - Amend approved legal text for P272 such that Section S-1 2.2.8A introduced by P272 is deleted as set out in P320. No changes are needed to Section S-1 2.2 to implement this; and
 - ‘Amend approved legal text for P272 such that new Section L2.4.1A and the amendments to L2.4.2 introduced by P272 are replaced by the approved legal text implemented by P320 of Section S-1’.
 - P322:
 - ‘Amend approved legal text for P272 such that the amendments to Section L2.2.2 introduced by P272 are replaced by the approved legal text implemented by P322 of Section L’;
 - ‘Amend approved legal text for P272 such that the amendments to Section L2.3.3 introduced by P272 are replaced by the approved legal text implemented by P322 of Section L’;
 - ‘Amend approved legal text for P272 such that new Section L2.6.1A introduced by P272 is replaced by the approved legal text implemented by P322 of Section L’; and
 - ‘Amend approved legal text for P272 such that the amendments to Section X-1 introduced by P272 are replaced by the approved legal text implemented by P322 of Section X-1’.

<p>Description of Issue or Defect that Modification Proposal Seeks to Address (<i>mandatory by originator</i>)</p> <p>Following its decision to approve the P322 'Revised Implementation Arrangements for Mandatory Half Hourly Settlement for Profile Classes 5-8' Alternative Modification, the Authority approved a 12-month extension to the P272 Implementation Date on 24 June 2015. This amended the P272 Implementation Date to 1 April 2017. The approved P272 legal text was not updated as part of the change in the P272 Implementation Date. As the P272 legal text includes the previous Implementation Date of 1 April 2016 within it, a Modification is required to reflect the change in the Implementation Date.</p> <p>Since P272 was raised, there have been several other Modifications that have amended the requirements of P272. One of these, P322 'Revisions to the Supplier Hub Principle', has been implemented already. Another, P320 'Reporting on Profile Classes 5 – 8 Metering Systems after the implementation of P272', is due to be implemented at the same time as P272. Therefore, a Modification is required to ensure that the effects of these Modifications are not overwritten by the later implementation of P272.</p>
<p>Impact on Code (<i>optional by originator</i>)</p> <p>Section L 'Metering'</p> <p>Section S 'Supplier Volume Allocation'</p> <p>Section S Annex S-1 'Performance levels and supplier charges'</p> <p>Section X, Annex X-1 'General Glossary'</p>
<p>Impact on Core Industry Documents or System Operator-Transmission Owner Code (<i>optional by originator</i>)</p> <p>None anticipated</p>
<p>Impact on BSC Systems and Other Relevant Systems and Processes Used by Parties (<i>optional by originator</i>)</p> <p>None anticipated</p>
<p>Impact on other Configurable Items (<i>optional by originator</i>)</p> <p>None anticipated</p>
<p>Justification for Proposed Modification with Reference to Applicable BSC Objectives</p> <p>This Modification would better facilitate Applicable BSC Objective (d) as correcting the P272 Implementation Date and potential ambiguity would ensure the BSC is delivered in the most effective and efficient manner.</p>
<p>Is there a likely material environmental impact? (<i>optional by originator</i>)</p> <p>None</p>
<p>Urgency Recommended: No</p>

<p>Justification for Urgency Recommendation (<i>mandatory by originator if recommending progression as an Urgent Modification Proposal</i>)</p> <p>N/A</p>
<p>Self-Governance Recommended: Yes</p>
<p>Justification for Self-Governance Recommendation</p> <p>The proposed Modification will have no material impact on processes, any BSC Parties or Party Agents.</p>
<p>Fast Track Self-Governance Recommended: Yes (<i>delete as appropriate</i>) (<i>optional by originator</i>)</p>
<p>Justification for Fast Track Self-Governance Recommendation (<i>mandatory by originator if recommending progression as Fast Track Self-Governance Modification Proposal</i>)</p> <p>The changes proposed will correct the changed Implementation Date in the original P272 legal text to ensure that P272 and other Modifications impacting the same Sections of the BSC are delivered as intended with no ambiguity. We therefore consider that this meets the criteria to be progressed as Fast Track.</p>
<p>Should this Modification Proposal be considered exempt from any ongoing Significant Code Reviews? (<i>optional by originator in order to assist the Panel decide whether a Modification Proposal should undergo a SCR Suitability Assessment</i>)</p> <p>No impact on any Significant Code Review anticipated.</p>
