
April 2021 Standalone Release Circular

Date	04/11/2020	Purpose	For information
To	CVA Programme Circulars, SVA Release Circular distribution	From	Releases@elexon.co.uk
Title April 2021 Standalone Release Circular: Notification of Initial Scope			

What is the purpose of this Circular?

This Release Circular sets out the initial scope of the April 2021 Standalone Release (“the Release”).

What will be included in the April 2021 Standalone Release?

The Release includes one Modification and one Change Proposal. These changes will become effective on **1 April 2021**.

Change Ref	Title	System Impact
P383	Enhanced reporting of demand data to the NETSO to facilitate CUSC Modifications CMP280 and CMP281	SVAA
CP1531	Additionally provide the TUoS Report to National Grid ESO at the II Settlement Run	Elexon Portal

How will the changes affect me?

P383 will enable the aggregation of specific Metering Systems’ metered data for network charging purposes, thereby supporting the operation of CUSC Modification Proposals CMP280 and CMP291. This modification will introduce processes explaining how **Suppliers, Half Hourly Data Aggregators (HHDAs)** and the **Supplier Volume Allocation Agent (SVAA)** participate in the aggregation and reporting of storage facilities’ Metering Systems’ metered data. P383 will impact **Suppliers, HHDAs, SVAA, Storage Operators and NG ESO**.

CP1531 will enable the TUoS Report to be made available to NG ESO at the II Settlement Run. CP1521 impacts **NG ESO** only.

Where can I find more information?

For more details, please visit the [P383](#) and [CP1531](#) pages on our website.

For more details related to the Release, please see the [April 2021 Standalone Release webpage](#) or contact releases@elexon.co.uk.
